Significant Features & Benefits

Important!

Index linking (if shown as applying in your schedule)

Index linking applies to the sums insured under section 1 of your policy, as shown in your schedule. This means the sums insured are automatically adjusted in line with the general rises in cost. By having index linked sums insured it gives you some inbuilt protection against the effects of inflation.

Inflation provision (day one basis) – where the basis of settlement is on a day one basis you must notify us of the declared value of the property insured for each item at the beginning of the period of insurance. The declared value is the value you arrive at when considering the potential cost of rebuilding or replacing property lost, destroyed or damaged with allowance made for professional fees, debris removal costs and any additional costs to comply with public authority requirements (ignoring any inflationary factors).

Day one basis of reinstatement means that the sum insured is declared as at the first day of the period of insurance and an inflation provision of 35% is then applied to reflect the effect of inflation. For example you may have a declared value of £100,000 and a sum insured of £135,000.
